

MILLION FARMERS FIGHT HIGH FOOD

Grangers to Sell Their Products Direct to Retailer.

"CO-OPERATION" BATTLE CRY

It is Declared That by the Direct Method of Selling Cold Storage Practically Will Be Eliminated.

New York, Aug. 31.—Calling themselves the advance guard of the only army which ever can prevail against the trusts, with "co-operation" as their cry and their object the reduction of the cost of living to its lowest possible level, fifty farmers of New York and Pennsylvania have arrived in this city for the purpose of placing on a business basis a plan whereby the farmer is to sell his produce direct to the city retailer without intervention by the middlemen.

The men who have come here are delegates of the United States Stores, Grangers, Dealers and Consumers' Association and are said to represent a million farmers in New York and Pennsylvania.

They expect before they return to their farms to organize in this city a market or distributing station where the produce of thousands of farms will go straight to the hands of retailers at a reduction to the ultimate consumer of at least 40 per cent. from present prices.

It was announced that the United States Stores, Grangers, Dealers and Consumers' Association was supported by a present fund of more than \$1,000,000 and that by a slight assessment of its members the fund could be reared at any time to an enormous size.

If the market to be established in this city fulfills expectations similar markets are to be established in every large city in the United States and the plan put into operation on a national basis.

The delegates will go in a body to the Bush Terminal Stores in South Brooklyn, where quarters for the New York market already have been engaged and where it is declared the distribution of farm products will begin in a few weeks.

One thousand retailers of this city are already in negotiations with the association. All kinds of farm produce, including poultry, eggs, beef, mutton and pork, will reach the retailers through the market.

It is declared by the direct method of selling cold storage practically will be eliminated.

WHOLE FAMILY INJURED

U. OF M. PROFESSOR AND FAMILY RUN DOWN BY HORSE NEAR BOAT LANDING.

Ann Arbor, August 31.—All of the members of the family of Prof. H. B. Merrick are lying badly injured at St. Mary's hospital in Detroit, the result of being trampled upon by a runaway team at the foot of Wayne street Wednesday morning as they were leaving the steamer dock to take a car. Prof. Merrick, who is an assistant in the surveying school of the engineering department of the University of Michigan, with his wife and two children, were returning from Mackinac. All four are badly injured.

H. S. LIBRARIAN TO STUDY BOOKS IN NEW YORK

Miss Marie Newberry, who has filled so acceptably the post of librarian in the central school building, has asked for and has been granted a year's leave of absence, that she may take advantage of an opportunity which has presented itself of studying in the school for librarians which Andrew Carnegie has established in connection with the splendid library built by the city of New York. It ranks with the Boston public library and membership to the librarian's school is limited. Miss Newberry finished the examination of admittance last week, and the fact that she did so successfully reflects great credit on her ability, which has been fully acknowledged by those in Ypsilanti who have known of her work.

Miss Newberry's successor is Miss Ellen Hoffman of Merrill, Wisconsin. She is a graduate of the Normal school at Stevens' Point, Wisconsin, and has had training in library work in Ann Arbor. She has besides had five years' experience as a teacher. It is felt she will successfully succeed Miss Newberry. Miss Hoffman and her mother will live at 619 Emmet street.

\$250,000 FOR GATES' NEPHEW

Will of Late Financier Leaves \$100,000 to Sister-in-Law.

Aurora, Ill., Aug. 31.—Henry Baker, twenty-one years old, of St. Charles, Ill., only nephew of the late John W. Gates, can testify that "education pays." By the terms of the late financier's will, just read in private, young Baker will get \$250,000 if he is graduated from college. He is left \$10,000 with which to pay his course through school. He intends to enter Harvard this fall.

Mrs. Lucerne Angell, a blind sister-in-law of Mr. Gates, is left \$100,000, while her daughter, Dolores Angell, ten years old, is left \$100,000 in trust. She gets the principal when she is twenty-one years old. C. J. Baker, who married a sister of Mr. Gates' wife, is left \$25,000 and a farm near St. Charles valued at \$50,000. His wife is left \$25,000.

KEPT HIS PIGS, HAS HIM ARRESTED FOR REMUNERATION

David Colvin (colored), who was arrested Wednesday afternoon on complaint of John Perry, also colored, charged with using indecent, immoral and obscene language before a woman, was arraigned before the local justice and pleaded not guilty. His trial is set for Thursday of next week.

The trouble which is of long standing arose over two hogs in possession of Melissa Owen. Colvin secured a writ of replevin from Justice Breining of Augusta township. John Perry was bondsman. Deputy Sheriff Hipp delivered them to Perry but before the suit came off Justice Breining's term of office expired and his successor, Justice Carter, rendered a judgment in favor of Colvin. Perry wouldn't give up the pigs as he claimed \$20.65 was due him for the keep of the two pigs for 57 days. Colvin refused to pay and a second writ of replevin was taken out before Justice Preston of Superior. The case was tried Wednesday and the justice allowed him \$3 for their keep and \$3.50 for livery hire. But Perry in the meantime had sold one of the pigs to a drover so Colvin got a judgement of \$5 which was the difference in the price of the pig.

Perry has now secured an order for a warrant from the prosecuting attorney for the arrest of Colvin for using indecent, immoral and obscene language in the presence of a woman and the trial has been set for next Thursday.

W. C. T. U. SPEAKERS CHOSEN

Annual Convention to Begin in Milwaukee Oct. 27.

Boston, Aug. 31.—Announcement is made here of some of the speakers who will take part in the thirty-eighth annual conference of the National Woman's Christian Temperance union, which opens in Milwaukee on Oct. 27. The annual address of the new president, Mrs. Lillian M. N. Stevens of

MRS. LILLIAN M. N. STEVENS.

Portland, Me., will be one of the important features. Among the other speakers will be Mrs. Ella A. Boole, president of the New York Woman's Christian Temperance union; Mrs. Florence Richard of Ohio; Mrs. Mary Kuhl, president of the Illinois Woman's Christian Temperance union.

15 Killed in Bridge's Fall. St. Moritz, Aug. 31.—A railroad bridge under construction across a deep gorge near Brül, in the Engadine valley of Switzerland, collapsed in the night. It took thirty workmen to the depths below. Fifteen of the men were killed and fifteen injured.

Be sure and have the Daily Press sent to you while you are away on your vacation.

YOUTH ON SHIP WIRELESS HERO

Efforts Aid in Saving Lives of Fifty-Six Persons.

DISTRESS CALL FROM RIGGING

Apparatus Wrecked by Huge Wave, Boy Operator Climbs Mast—Passengers Rescued by Cutter Yamacraw.

Charleston, S. C., Aug. 31.—To the courage of Wireless Operator Sheesley, a sixteen-year-old lad, the liner Lexington's twelve passengers and crew of forty-four say they owe their lives. Storm raged for twenty-four hours, her nose driven deep in the quicksand off Hunting Island, with seas dashing over her, the Lexington threatened to break up and fling her human cargo to death in the seething waters.

Sheesley stuck to his post, perseveringly ticked out his call for help and kept the terror-stricken passengers from abandoning hope. Finally a terrific wave swept the ship and wrecked the wireless station on board.

For a moment it seemed that hope was vain, but Sheesley climbed into the rigging and hastily fixed up a station. In imminent danger of his life from the high wind which threatened to tear him from his seat and blinded by the spray, the operator sent out his plea for aid.

Suddenly through the storm he was answered by the revenue cutter Yamacraw, which had heard his call and came on the way to save the lives of the Lexington's crew and passengers. The twelve passengers, a steward and three negro employes on the Lexington were brought here by the Yamacraw, which left the captain and crew of forty-three men on board.

Two firemen were reported to have been burned to death and a third terribly scalded when the vessel grounded. First Officer Chamberlain suffered a fracture of his right shoulder. The Lexington, which is a Merchants' and Miners' liner, was bound from Savannah to Philadelphia. Three times she was covered with water, the pumps expelling enough to clear the upper portions and float the stern.

Passengers incessantly prayed for abatement of the storm, and when the government steamer hove into sight a mighty cry of relief went up from the sorely stricken people on the Lexington. When the captain realized the danger of the liner's breaking up at any minute he had life preservers strapped on every passenger.

MEETING PLACE CHANGED

YPSI GRANGERS WILL MEET IN THE TEMPLE INSTEAD OF GROVE, SATURDAY.

The place of holding the meeting of the Ypsilanti Grange to be held Saturday has been changed. Instead of its being held at Peninsular Grove as was previously planned the committee in charge have decided on account of the cool weather that it would be best to hold it in the Masonic Temple. The day will be set aside as "Ceres" day and a program appropriate to the occasion will be presented. Mrs. H. D. Budd will be in charge. A paper on the leading topics of the day will be given by George McDougall which will be followed by recitations and music.

GILBERT PARK SWINGS DOWN FOR NEW PAINT

The six swings in Gilbert Park on Congress street have been taken down temporarily to allow of the framework being painted. These swings have paid large dividends of joy to the children of the neighborhood. Much of the time the entire six are in use and all feats known to swinging are here practised. Swinging is not despised by adults, either. Many times in traversing the park a couple of young ladies or a devoted pair tarry long enough to go up and down a hundred times or so, and swinging by the light of the summer moon is not unknown.

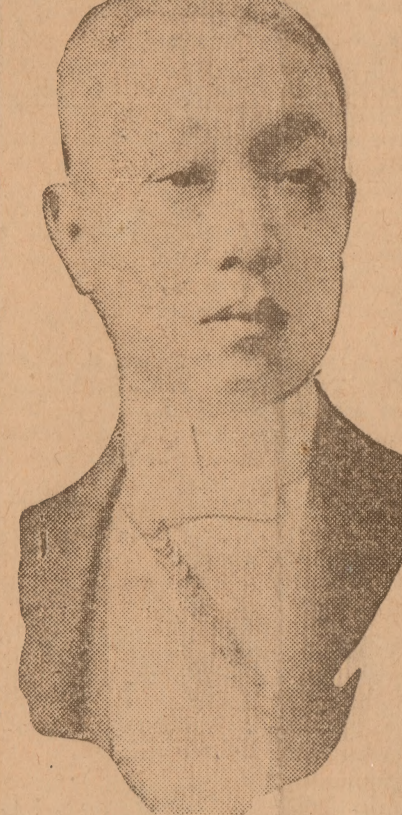

REPUTATION RUINED.

In the mad rush for wealth in the last few years the lines between profit from legitimate business and improper gain from trust control over other people's money have sometimes been dimmed.

That and the blasting of an honorable man's reputation is the theme of "The Lion and the Mouse," the greatest drama of the century.

MARQUIS SAIONJI

New Japanese Premier Selects His Cabinet.

PUBLICITY LAW DEFECT

Fatal Flaw, Joker or Otherwise, Is Discovered.

Act Contains No Requirement for Making Public Individual Statements of Candidates.

Washington, Aug. 31.—Primary election statements of expense from Senators Martin and Swanson of Virginia, the first to be filed under the new publicity law that went into effect Aug. 19, reached the office of Secretary Bennett of the senate.

In the absence of Secretary Bennett, officials of his office declined to make them public.

Following this declaration a careful examination of the new publicity law resulted in the startling disclosure that in the act, presumed to be most drastic, there is no requirement for publicity of the individual statements filed by candidates for the senate or the house of representatives.

NEW CENTER OF POPULATION

Census Director Durand Shifts It Eight Miles to West.

Washington, Aug. 31.—The center of population of the United States was announced by Director of the Census Durand to be in the western part of the city of Bloomington, Monroe county, Indiana.

This is eight miles farther west than the location announced July 17, when Director Durand placed it four and one-quarter miles south of Unionville, in the same county.

PLAN BIG TIME AT PORTAGE LAKE MONDAY

A big Labor Day celebration is being planned for the cottage owners at Portage Lake. An effort is being made to have a special program of sports, etc., on this day each year. The feature of the program this year will be launch, motor boat and sail boat races. It is expected that there will be at least 15 launches, probably six or eight sail boats in addition to canoes and row boats. Prizes in the form of championship pennants for 1911 will be awarded the winners. The races will start at an early hour Monday afternoon.

Efforts will be made at this time to organize a yacht club and all boat owners in the Portage colony are urged to be present and take part in the activities of the day.

NEXT UNION SERVICE TO BE HELD IN THE EPISCOPAL CHURCH

The union service of the churches will be held Sunday evening next in St. Luke's Episcopal church at seven o'clock. The vested choir will resume its singing under Miss Clyde Foster for both morning and evening. Professor F. A. Barbour of the Normal faculty will preach and his subject will be, "Finding ourselves in amusement."

THROWS BOMB IN NEW YORK

Infernal Machine Is Hurlled from a Taxicab.

JARS GREAT CITY HOTELS

Residences and Apartment Houses Shaken for a Mile Along Fifth Avenue—No One Is Injured.

New York, Aug. 31.—The explosion of a Black Hand bomb loaded with dynamite and gun cotton on the front of an Italian fruiterer's at Lexington avenue and Fifty-first street early in the morning rattled the windows of residences and apartment houses for a mile along fashionable Fifth avenue and awakened hundreds of guests in the Hotel Plaza, the St. Regis and other fashionable hostleries.

The infernal machine, which the police say was hurled by a Black Hander from a speeding taxicab, was one of the most powerful ever exploded in New York.

It tore a great hole in the pavement and completely demolished the lower portion of the building.

A police sergeant who stood at a corner a block above watched the speeding taxicab as it slowed down on the asphalted street and then was suddenly thrown off his feet when the crash came.

The fruiterer, Charles Romo, who is reputed wealthy, told the police that he had received many letters demanding money and threatening all sorts of dire punishment if the cash was not forthcoming. Romo's loss from the damage to the stock and building will probably reach \$5,000.

An hour after the Lexington avenue explosion, the police of the adjoining precinct reported a similar explosion on East Twenty-ninth street, in front of the headquarters of the Anthony Caputo, proprietor of the Manhattan Macaroni Manufacturing company. The crash smashed plateglass windows in four buildings, but did little other damage.

KANSAS POET ACCUSED BY SINCLAIR HAS WORN NO HAT FOR 20 YEARS

UPTON SINCLAIR

Lawrence, Kan., August 31.—Harry Kemp, the young poet who is alleged by Upton Sinclair to have been the cause of an estrangement between the novelist and his wife, possesses some of the so-called eccentricities of genius. Perhaps the oddest thing about him is that he goes bareheaded all the time, rain or shine, indoors and out. His friends say that for twenty years or more, since he was a small boy, he has not worn a hat. Kemp is a well known figure here, where he has been a student in the State university for years. Years ago he tramped about the country. On one of his tramps he visited Lawrence, became interested in the university and decided to settle down here and attend school. For several years Kemp has been a contributor of verse to the Independent, the American Magazine and other eastern publications, which have "played up" his work because of its originality and force. Upton Sinclair's announcement of his intention to sue for divorce because of Kemp's friendliness with Mrs. Sinclair at the Arden Socialist colony in Delaware was received with surprise by the Lawrence friends of the young people.

SAIONJI PICKS HIS CABINET

Uchida, Envoy to United States, Will Be Foreign Minister.

Tokyo, Aug. 31.—Marquis Saionji submitted to the emperor for his approval the names of the men composing the new cabinet, which he has formed in succession to the retiring ministry headed by Count Katsura, after which the personnel was officially announced as follows: Premier, Marquis Saionji; home affairs, Kei Hara; finance, Tatsu Yamamoto; war, Lieutenant General Ishimoto; navy, Vice Admiral Minoru Saito; agriculture and commerce, Baron Nobuki Makino; communications and foreign affairs (pro tem.), Count Tadashi Hayashi; justice, Masahisa Matsuda; education, Sumitaka Haseba. Viscount Yasuichi Uchida, the ambassador to the United States, will be appointed minister of foreign affairs after his arrival at Tokyo.

HIGH WIND COSTS MICHIGAN MEN THEIR STANDING IN SHOOT

An error of 12 inches cost Michigan men this year at the national meet, at Camp Perry, Ohio, in which Dr. Harry Britton of this city and Capt. P. D. Foster of Ann Arbor took part. The Michigan men had risen to third place when the last stage was reached. Their work had been capital and sanguine hopes were entertained that they would bear away the honors. An error was made however in catching the wind. Mistaking the direction and the strength of the wind, the group of Michigan marksmen stood 12 or 14 inches too far to the left. The shooting in itself was excellent, but the error of judgment caused Michigan to drop from 3d place to 26th place, and the men naturally regard it as a piece of hard luck.

ANN ARBOR MEN CHOSEN TO ATTEND CONSERVATION CONGRESS

Ann Arbor, August 31.—Gov. Osborn has named Professor Filbert Roth and Hon. Junius E. Beal of this city as delegates from this state to the great Conservation congress to be held in Kansas City, Sept. 25 to 27. Each city above 25,000 has the right to appoint five delegates, and each city below 25,000 the right to appoint two.

TELLS OF SEEING WHISKERED MAN

Stranger on Turnpike at Time of Mrs. Beattie's Murder.

STATE RESTS; DEFENSE BEGINS

Prisoner's Attorney Produces Witness Who Claims to Have Seen Man Answering Description Given by Henry C. Beattie, Jr.

Chesterfield Court House, Va., Aug. 31.—The grave business of Henry C. Beattie's defense against the charge of wife murder commenced after the commonwealth's lawyers had rested their case.

Before his lawyer, Harry Smith, Jr., had been an hour at work on the building of combative evidence against the serious case made out against the young man by the prosecution he had introduced a witness who swore that on the evening of the day when Mrs. Beattie was murdered on Midlothian turnpike he had seen a rough looking man answering in a vague way the description of Mrs. Beattie's assailant, as the prisoner himself has given it, who was walking along the tracks of the Southern railroad, three miles away from the scene of the homicide with a single barreled shotgun over his shoulder.

Up to the close of the session of court further testimony tending to trace the movements of this armed man from 5:30, the hour when the witness saw him, up to near 11 o'clock, when Mrs. Beattie was fired upon, had been entered.

So far as Beattie's defense revealed itself in the three and more hours of its opening it was shown that no attempt will be made to dodge the story, which the prisoner has told of his wife's having been slain by the charge of a single barreled shotgun, fired at a range of about six feet by a man unknown to Beattie. There was no hint given of a possible defense of insanity, which had been rumored during the early days of the case; no attempt to establish the ground for a verdict of involuntary manslaughter, through the misbanding of the gun in Beattie's own hands.

The young man's lawyers have evidently decided to stand, or fall, by the highly unusual story that their client has interposed in the face of the strong circumstantial evidence against him. This means that unless they can confound the evidence of Paul Beattie, the testimony of that witness setting forth how Henry made a confession of guilt to him and linking Henry directly with the possession of the shotgun admitted to be the weapon of assault, will go before the jury as vital proof of the young man's guilt.

Attorney Smith said that Henry Beattie would not go on the stand in his own behalf until the rest of the case of the defense was all in. The accused, though he has been through a serious trial during the past few days and the weight of the mental strain is visible upon his features, is eager to face the jury.

ELECTION AT FREE CHURCH

TRUSTEES AND DELEGATES FOR CONVENTION AT FLINT ARE CHOSEN.

An election was held in the Dixboro and Free churches Tuesday to elect a delegate and an alternate to attend the lay conference to be held in Flint September 22. Robert Clark was elected as delegate, with Elwin Pooler for alternate.

At the same time the Dixboro church elected its trustees. These were: E. A. Matteson, John Quackenbush, Earl Quackenbush, Floyd Parker, Geo. Eddy, Eugene Koch and Burton Galpin.

DISCOVERIES IN SAMARIA

Archaeologists Dig Up Interesting Relics in Holy Land.

London, Aug. 31.—F. F. Ogilvie, who was a co-worker with Professor Geo. A. Reisner, head of the Harvard university's expedition to Samaria, says the recent so-called discoveries in King Ahab's palace of pottery and tablets, inscribed with the correspondence of Ahab, Jezebel and Elisha, probably refers to finds made by the American searchers.

Professor Reisner's expedition found in Samaria, the remains of Roman, florian and more ancient towns. These were discovered at successive depths, where tax receipts and other writings in fragments of pottery were found. If, however, the report was true that correspondence had been found it would be practically the first discovery of important political writing in the earliest form in which it could be recognized, Hebrew script.

THURSDAY, AUGUST 31, 1911

There may be a suggestion for Ypsilanti in the trouble which Pontiac is now experiencing with her water supply. The water supply in Pontiac is obtained from ten two-hundred foot wells and it is not believed that the water from the pump itself is bad, but that not enough care was used in cleaning the tanks. But from some source it is believed that typhoid germs have gotten into the water, and State Health Officer Dickinson has notified the local health officer that the Pontiac city water is unfit for drinking purposes. A sample of the water was sent to the state department because of seven cases of typhoid fever which have recently developed. Ypsilanti has always had the very best water. But we ought not to permit ourselves to err by not taking advantage of any suggestion which may contribute, if carried out, to sustaining our reputation and the purity of our water.

NEWS BRIEFS

STATE

BELLEVEILLE—Plans are on foot to do away with the hitching rails in the main part of the village and fit up a suitable place around the town hall.

LANSING—Hon. H. C. Spencer of Flint has been named as a delegate to the third national conservation congress to be held in Kansas City, Sept. 25 to 27.

BELLEVEILLE—The floor at the site of the Clark mill is being cleaned out and the water wheels put in shape to be harnessed. The burning of the mill has been a hard blow to the village.

EATON RAPIDS—There not having been any arrest at Pottersville in Eaton county for the past two years, the village has decided to sell its jail. The council has ordered the cell gates to be shipped back to the manufacturer at a price much reduced from the cost. The jail will be converted into a business room and the village marshal's salary has been cut in half. The marshal is made street commissioner. This is all since local officers sent the saloons out.

LANSING—The Michigan Manual for 1911, the state red book, has been received by Secretary of State Martindale and is ready for distribution.

NATIONAL

MANITOWOC, Wis.—The county fish and game protective association will plant 180 gallons of rainbow trout, 100 of brook trout and 100 of black bass.

AKRON, O.—Melvin Vaniman's balloon with which he and five others will attempt to fly across the Atlantic ocean Oct. 22, has been shipped from an Akron rubber factory to Atlantic City.

MADISON, Wis.—Plans have been drawn up for a building to be used by the agricultural chemistry department at the agricultural college of the University of Wisconsin.

WASHINGTON—Senator Cullom has proposed that \$48,000,000 be spent in building seven great roads radiating from Washington to Portland, Maine, to the Pacific, to Arizona, Texas, etc.

ST. PAUL—First steps have been taken in the gigantic project to move the channel of the Mississippi river, below the business district, giving room for a new union station and terminals and for a larger wholesaling and jobbing district. This will add 700 acres of land to the business district, with an estimated value of \$25,000,000. The project will cost \$3,000,000.

WASHINGTON—To bring about more intimate commercial relations between the United States and Mexico, a bureau of information and permanent exhibit of American and Mexican products have been established at 32 Broadway, New York.

WASHINGTON—The receipts in the postal savings offices at New York, Chicago, St. Louis and Boston, which opened for business August 1, amounted to \$250,000 at the end of the first three weeks.

WASHINGTON—Because of the special session of Congress the contractors have been unable to take up the work of remodeling the hall of the House of Representatives, and the result will be that when the next Congress, to be elected in November of next year, assembles, there will not be seats enough to go round.

WASHINGTON—Two motor car army escort wagons will soon complete with the Georgia mule in a free-for-all contest in the U. S. army. Two troops of cavalry will start from a western army post on a 500-mile march. The troops will take with them a complete wagon train of army wagons, hauled by mules, two motor trucks and a pack train.

SAN DIEGO—J. V. Steele has ar-

rived here from San Jose de Cuba, Lower California, bringing a number of specimens of onyx, which came from an immense quarry recently discovered.

SANTA MONICA—A concrete paved boulevard between Los Angeles and Santa Monica, with automobile passenger busses is the latest novelty proposed for this city.

KANSAS CITY—Manual training in every ward school is one of the important improvements planned here. Experiments in school gardening, improvement of playground facilities, night schools in the winter and neighborhood meetings held and as large a use as is possible made of the school buildings for the benefit of the community, are features on the school program.

MILWAUKEE—The 38th annual conference of the national W. C. T. U. opens here on Oct. 27.

FOREIGN

WINNIPEG, Man.—Great railroad development projects in western Canada is reported. An expenditure of \$45,000,000 will be made this season, giving continuous employment to 30,000 men and 10,000 teams. Two thousand eight hundred miles of tracks will be laid out.

SIMLA—Orders have been issued that Dec. 7, the day of the state entry of the King and Queen into Delhi, and Dec. 12, the day of the Durbar, shall be holidays.

SWITZERLAND—August 1 is the day on which the Swiss nation celebrates its independence and solidarity won by the three small states of Uri, Schwyz and Unterwalden. On the stroke of 8 the bells in every bellry in the country are set ringing, fire works and bonfires and the singing of the national anthem are everywhere indulged in.

PARIS—M. Dancy, has invented a fire extinguisher which has proved to be far more effectual than any hitherto employed. It consists of a tank containing certain liquids, salts and gases. Pressing the lever mixes the contents of the tank and produces enormous pressure, which forces the liquid through a nozzle to a great height. The device was testing on a stack of packing cases and brushwood 50 feet high which was soaked with petrol, tar, oil and other highly inflammable liquids. The flames rose 90 feet and there was a high wind blowing at the time, but the new appliance extinguished it in five minutes. It was impossible to relight the wood on which the liquid had been playing.

LONDON—"Pilgrim Day" was celebrated this year at Southampton for the first time, the ceremonies being performed in front of Southampton water under the presidency of the mayor. It is hoped a year hence to commemorate the sailing of the Mayflower and the Speedwell by the erection on the western shore of a permanent memorial for which a fund has been raised in England by Americans.

SIMLA—During the past decade the number of scholars in public and private institutions has increased 40 per cent. The expenditure has increased 59 per cent.

TOOTHACHE MAY COST RAILROAD \$20,000.

Suffering Passenger Who Was Ejected From Train Brings Suit.

Jurors in the Spokane county superior court, to be convened in September, will be called upon to decide what is a reasonable balm when a passenger suffering from toothache is ejected from a train and forced to walk twenty-four miles to enlist the services of a dentist.

John H. Larson wants \$20,000 from the Great Northern Railway company for what is described in his complaint as "humiliation, shame, disgrace and physical pain." The complaint sets forth that Larson boarded a Spokane bound train in Lincoln county on June 29. He was told by the ticket agent to pay the conductor, as there was not sufficient time to sell a ticket. On the train Larson tendered a twenty dollar gold coin, but Conductor Stedman refused to accept it in payment of fare, saying the coin was spurious.

Larson had \$3.15 in silver, but that amount was not sufficient to pay his fare to Spokane, so the train was stopped and the passenger ejected. He sought the agent in the station at Waukon and was told the next train would be along in fourteen hours, so he decided to walk. Meanwhile the pain of the aching tooth became more aggravated, and when Larson reached Spokane, following the long hike on the grade, his jaw was swollen so his friends failed to recognize him.

THINKS HE CAN CURE LIARS.

Holy Cross Professor Says Prevention Is First to Be Sought.

The Rev. Robert Switzer, professor of history and pedagogy at Holy Cross college, in a lecture before the teachers' congress in Boston college said that "the so called confirmed liar is not a hopeless case, but may be cured by patience and sympathetic interest."

The clergyman's topic was "Prevention and Cure of School Evils, Especially Lying and Cheating."

"American boys have more common sense and a fairer appreciation of justice than any others in the world," he said. "It is important that we should know the cause of evil in the individual case. We should know whether the cause is pure egotism, excessive imagination, nervousness or excitement or from a misunderstood motive of heroism. The treatment will be different in different cases. More important than the cure of lying is the prevention of lying."

MICHIGAN NEWS

CENSUS OF MICHIGAN

Population Has Increased 389,191 in Ten Years.

Cities Show Largest Gains, Detroit and Grand Rapids Leading—Rural Population.

Washington, Aug. 31.—A statement just issued by the census bureau gives additional statistics of general interest about the population of Michigan.

The total population, 2,810,173, as shown by the federal census of 1910, is an increase of 389,191, or 16.1 per cent., over the population of 1900. In the same period the total population of continental United States increased 21 per cent.

The census bureau has designated as urban population the inhabitants of incorporated cities and villages over 2,500 which comprises 70 cities and 9 villages; the inhabitants of 357 cities and villages less than 2,500 are classed with rural population. Thus divided, the total urban population of Michigan is 1,237,044, or 47.2 per cent., and the total rural population 1,483,129, or 52.8 per cent.

Michigan has 106 cities. Detroit, the largest, has 465,766 population; Grand Rapids, second in size, 112,571, and Saginaw, the third, 59,510. Detroit and Grand Rapids increased in population over three times as rapidly as the population of the state; other cities over 25,000 increased almost by the same ratio, while cities between 2,500 and 25,000 show about normal increase.

The population of Michigan's 82 counties ranges from 2,027 in Oscoda, the smallest, to 531,591 in Wayne, the largest, which has 65,825 population outside of Detroit.

The total land area of Michigan being 57,480 square miles, the average number of persons to the square mile is 48.9 as compared with 42.1 in 1900. In density of population Michigan ranks seventh among the states.

SWEARS LOVE FOR MAN

Bay City Wife Suspected of Killing Her Husband.

Bay City, Mich., Aug. 31.—Sobbing hysterically and in need of the support given her by Sheriff Kinney and wife, Mrs. Vian Behrman was led from the county jail to the Ewell morgue to view the body of her husband, whom she is charged with slaying last Friday afternoon, after bringing him back from Buffalo, where she says she found him living with another woman. At sight of the big man, lying still and cold in death, the frail little woman broke down completely.

"Oh, Henie, my Henie!" she cried. "If you could only speak to me! I can't have you torn from me this way! Oh, how I love you! Let me kiss you! Oh, my Henie!" Her grief appeared genuine and it hardly seemed possible that she could have killed the faithful husband she appeared to love more than anything else in life.

DRAINS RECLAIM SWAMPS

Worthless Land in Eaton County Now Valuable Mint Beds.

Eaton Rapids, Mich., Aug. 31.—By a modern system of drainage many hundreds of acres of land in Eaton county have been brought into active use in the last few years, which previous to that had been regarded as practically worthless, not even being available for pasture lands, because of the swampy condition and danger to stock.

Eaton county has come to be regarded as one of the most extensive peppermint producing districts in Michigan, and nearly all of these mint farms are lands which, less than ten years ago, were worthless swamps and could not have been sold for 25 cents an acre for farming purposes. Now they are as valuable as any tracts of land in southern Michigan.

WILL SELL ITS JAIL

Pottersville Has Not Had an Arrest in Two Years.

Eaton Rapids, Mich., Aug. 31.—There not having been any arrests at Pottersville, in Eaton county, for the past two years, the village has decided to sell its jail.

The council has ordered the cell gates to be shipped back to the manufacturer at a price much reduced from the cost. The jail will be converted into a business room and the village marshal's salary has been cut in two. The marshal is made street commissioner. This is all since local option sent the saloons out.

Postmasters Meet in Detroit.

Clarksville, Mich., Aug. 31.—The Michigan branch of the National League of Postmasters of Third and Fourth Class Offices will hold its annual convention in Detroit Sept. 12-13. Leave of absence has been given by the postmaster general to all postmasters of third and fourth class offices in the state to attend.

Frat Refuses to Break Up.

Lansing, Mich., Aug. 31.—The Phi Alpha Delta fraternity of the Lansing High school has voluntarily disbanded as a secret society and has reorganized under a new constitution in compliance with the new state law.

A National Department Of Health Is Advocated

Government Bureau For Conservation of Human Life Needed.

League Organized to Bring About Necessary Legislation.

SICKNESS and death, it has been computed, cost the nation \$3,000,000,000 annually if the value of the labor lost as their result is capitalized. The fact that most of this sum may be saved by proper hygienic measures as well as humane considerations led to the formation of the committee of one hundred on national health to prolong human lives and to foster efficiency, health and happiness. To aid in its work the committee organized the American Health league with many thousand members to disseminate health information and to bring about needed health legislation.

Professor Irving Fisher, the chairman of the committee, has just pointed out that life insurance companies can by taking steps to reduce mortality decrease the cost of insurance for policy holders. Realizing this, one of the largest life insurance companies has established a consumptive sanitarium. It has engaged visiting nurses to co-operate with visiting nurses' associations in certain cities to care for its bedridden policy holders; it has established a health magazine to distribute health literature among its policy holders, available to 15,000,000 readers, or one-sixth of the population in the United States.

Health Insurance.

The fraternal societies have also entered the campaign. Their journal now has a department especially devoted to the public health. Fraternal insurance companies have established sanitariums and have attempted in other ways to lengthen lives and decrease death claims.

Health insurance, one of the youngest forms of insurance, has made a beginning in the field of disease prevention. One protective insurance company has within the last few months established a health bureau to issue bulletins and conduct a sort of correspondence school of health information.

But the greatest agency of all, the national government, has not yet undertaken the work of preventing disease in a way proportioned to the needs of 91,000,000 people. Senator Owen has introduced in congress a bill to establish a national department of health by co-ordinating the government's present agencies so they may work more effectively. Dr. Charles A. L. Reed in a recent speech in Philadelphia said that the United States with its health agencies distributed in the department of the treasury, the department of agriculture and other departments is the laughingstock of Europe, while the people of this country are

MAY CLOSE ASSAY OFFICES.

Run at a Loss Unless Rates Are Raised, Say Treasury Officials.

More landmarks of the early west will begin to disappear on Jan. 1 unless congress should pass legislation to maintain the scattered western assay offices on their present basis.

The government has decided to double the charges for assaying at Deadwood, Carson, Salt Lake, Helena, Boise and Seattle. Congressmen from those places protest that the effect will be to close the offices, because the mining companies will prefer to send their gold to the mints, where the assaying charge will not be increased. Treasury officials say the offices have been run at a loss for years. Still alone, they state, does quite a business in assaying gold that comes down from Alaska, but at all others the government loses money.

The government established these assay offices in the stirring days when the Wells Fargo messenger, setting out over the pass with a fortune in his saddlebags, often failed to return, and the professional "assayer" was classed with the card sharp and the "gun man," and no miner was assured of an honest assay of his treasure.

But with the advent of mining machinery the officers became less useful because many of the big companies preferred to send their gold direct to the mints, and now treasury officials say the old assay offices are useless, and if abolished the government would save several hundred thousand dollars a year.

NEW CURE FOR GOUT.

Radium Laden Breezes Latest Pleasant as Summer's Outing.

Radium laden breezes are the very latest thing in the treatment of gout. One of the papers read at the recent German medical congress at Wiesbaden was on the application of radium in the aerial state. Radium emanatoria have been established in Berlin and at Bad Homburg.

A special apparatus in which radium is placed in a current of air is fixed in a room, and the patients have merely to sit in the room and talk or read the newspapers or play draughts. The radium in solution in the air does the work and affects the blood through the lungs. This treatment is especially recommended for all gouty ailments.

dyling from preventable causes at the rate of one every minute.

At one of the hearings at Washington on the subject of a national department of health General George H. Stenberg, surgeon general of the army, said:

"I suppose the only reason why we have not long since had a government department to look after the public health and to take the lead in instructing the people how to prevent the enormous waste of human life from preventable diseases is because our legislators have not heretofore realized the importance of this subject. After the great epidemic of yellow fever in 1878 congress was greatly aroused upon the subject of preventing future epidemics of this disease, and a national board of health was organized. But this board was not provided either with the authority or the financial support necessary to make it a success. Its members were engaged in other occupations and did not receive salaries. They were therefore unable to devote any considerable portion of their time to questions relating to the public health. They did, however, inaugurate investigations which after more than twenty years led a demonstration of the method by which yellow fever is transmitted from man to man, and as a result of this knowledge we have learned how to control this pestilential malady.

The department of health measure, which has had the endorsement of the committee of one hundred, has also had endorsements from governors of states and from leading scientific, medical, labor, grange and philanthropic organizations. The measure is not, however, without opposition.

Elit on the Opponents.

Ex-President Eliot of Harvard says in regard to the opponents: "They also, as a rule, oppose medical research, vaccination and the use of antitoxins of all sorts. They are opposed to the use of the collective forces of the community to protect people from the results of ignorance, superstition and deceit. Unfortunately disease, like ignorance and superstition, cannot be successfully resisted on the principle of respecting each individual's right to suffer, be sick and die. Possibly there is such a right, but it cannot be exercised without grave danger to many other individuals. Contagious diseases take effect on masses of people, and they can only be successfully resisted by collective action."

Letters to congressmen and articles and lectures on the subject are ways in which citizens may co-operate to establish the much needed national department of health.

TO MAN THE UTAH.

Twelve Hundred Men Will Be Required on the Big Dreadnought.

It will take a full sized regiment—just about 1,200 men—to make up the complement of the big battleship Utah, which is to go into commission within a month and join the Atlantic fleet under Admiral Oosterhaus.

Readers of accounts of Nelson's brilliant naval battles, and even those of the War of 1812 and of the civil war, where a crew of a ship of the line numbered only a few hundred, may find it hard to realize the great number of men required to man one of the great Dreadnoughts of this day. But there is need for every one of them, though the old Jack tar plays but a small part in the ship's management. Many trades are now represented in the floating fortresses of the modern navy.

There are machinists, electricians, telegraph operators, engineers, boiler tenders and a small army of firemen and ash hoppers. Also there is a formidable force of marines, who are the police of the ship. The marines also man the batteries of secondary guns and always are told off first for the landing parties.

The recruiting officers will have an ample crew for the Utah when the ship hoists her commander's flag.

Kobe an Important Port.

Kobe, next to Yokohama the most important port of Japan, has been open to foreign trade since 1863. The adjacent city of Hiogo belongs to the municipality of Kobe, which lengthens out for a distance of about five miles, embracing the deep, well constructed harbor. The port gives entry to the busy manufacturing city of Osaka as well as to Kito and other neighboring towns, and the harbor can shelter the largest vessels in the world. The population of Kobe is over 200,000, besides a large contingent of foreigners. Formerly Hiogo was the larger of the two cities of the municipality and the principal commercial quarter. With the rapid progress of Kobe the scales have turned. Now the quiet, conservative aspect of Hiogo is in striking contrast to the brisk, progressive European appearance of Kobe. Kobe is 375 miles from Tokyo, a railway journey of fourteen hours.

FAVORS LEASING PLAN

Secretary Fisher Expresses Himself to Alaska Citizens.

Thinks Government Ownership of Coal Fields and Transportation Another Alternative.

Valdez, Alaska, Aug. 31.—Secretary of the Interior Walter L. Fisher, who has been investigating conditions with relation to the coal lands situation in Alaska, declared to a committee of Valdez citizens that he believed the early enactment by congress of a leasing law would afford the most satisfactory solution of the coal land problem. He said, however, that he was not yet definitely committed to that plan.

Secretary Fisher said that the only alternative to the leasing system was absolute government ownership and operation of the coal mines and transportation lines. He also declared that this was a step which a large part of the nation was opposed and he believed it scarcely practicable. The leasing plan, he said, appeared to offer the probability of speedier relief to Alaskans, whose most pressing need was the early delivery of coal for their domestic and industrial uses.

TWO MINERS ALIVE IN TOMB

Pennsylvanians, Victims of Cave In, Talk to Rescuers on the Surface.

Hazleton, Pa., Aug. 31.—Alexander Salina, a miner, and Anthony Margevitch, his laborer, both of Freeland, were caught in the Oakdale colliery of G. B. Markle & Co. by a mine cave and still are imprisoned.

A rescuing corps is digging for the men. The laborer has talked with the rescuers, but nothing has been heard from the miner. The laborer says the miner is farther back and that he is alive.

Waterway Meet to Chicago.

St. Louis, Mo., Aug. 31.—Official announcement of the sixth annual convention of the Lakes-to-the-Gulf Deep Waterway association at Chicago, Oct. 12, 13 and 14, was made by W. K. Kavanaugh, president of the association.

Brewery Burns.

San Francisco, Aug. 31.—Fire destroyed the plant of the Eagle Brewing company and the Inland Hardwood Floor company.

CHICAGO-ST. LOUIS 7 HOURS

Postmaster General Authorizes New Fast Service Between Cities.

Washington, Aug. 31.—Postmaster General Frank H. Hitchcock has authorized a new seven hour fast mail service between Chicago and St. Louis. The trains are not to leave the terminals before 7 a. m., nor arrive at their destinations later than 2 a. m.

They will carry the business mails between the two cities and such other mails as can make connections. The new service is the result of long negotiations.

Long Voyage for Submarines.

The British submarines C 36, C 37 and C 38 arrived in Hongkong on April 20 after a voyage of 9,000 miles from Portsmouth, which they left on February 8.

After the vessels left Spithead it was expected that they would hug the shore, but they carried right through the dreaded Bay of Biscay and proceeded under their own power as far as Gibraltar without any untoward event.

Life in the small compass of a submarine is not very entertaining, but the men, with the true spirit of the sailor, made the most of things. All the cooking was done on board by electricity.

It was customary for some of the men to enter a compartment on the upper portion of the vessel and to enjoy a bath as the submarine drove through the water. If she dipped the bather got more than he wanted, but all the same the sensation was cooling and pleasant.

HIDDEN DANGERS.

Nature Gives Timely Warnings That No Ypsilanti Citizen Can Afford To Ignore.

DANGER SIGNAL NO. 1 comes from the kidney secretions. They will warn you when the kidneys are sick. Well kidneys excrete a clear, amber fluid. Sick kidneys send out a thin, pale and foamy, or a thick, red, illsmelling urine, full of sediment and irregular of passage.

DANGER SIGNAL NO. 2 comes from the back. Back pains, dull and heavy, or sharp and acute, tell you of sick kidneys and warn you of the approach of dropsy, gravel and Bright's disease. Doan's Kidney Pills help sick kidneys. Here's Ypsilanti proof:

W. H. Hall, 513 N. Adams St., Ypsilanti, Mich., says: "Short use of Doan's Kidney Pills, procured from Weinmann-Matthews Co.'s Drug Store, convinced me that they are an excellent kidney remedy. They entirely relieved me of pain in the small of my back and difficulty with the kidney secretions. I cheerfully recommend Doan's Kidney Pills."

For sale by all dealers. Price 50c. Foster-Milburn Co., Buffalo, New York sole agents for the United States.

Remember the name—Doan's—and take no other.

DIDN'T SPEAK TO HIS WIFE FOR FORTY YEARS.

Ruland Lived Next Door to Her, but Never Forgave Scandal.

Gilson Ruland ever since he returned to his home in Patchogue, N. Y., from the civil war in 1865 had lived in a house adjoining that of his wife and never in forty years had spoken a word to her. Ruland died recently. He was ninety-one years old and at the time of his death had not a friend or relative in the world, his wife having died some time previously, from grief, it is believed, because he would not be reconciled with her.

Ruland married shortly before the civil war. He enlisted at the first call for volunteers. When he returned, four years later, gossiping residents of Patchogue were linking the name of his wife with those of other men who had not gone to the war.

From the day he returned and first heard the stories Ruland never again addressed a word to his wife. He left the house in which he and she had been living before the war and built himself a house next door. It was small, with only two rooms, and he lived there alone. He and his wife often passed each other in the street and lived so near that they could not help seeing each other through the windows of their homes. She made many fruitless attempts to win his forgiveness.

Ruland was known to two generations of children as "Santa Claus" because of his long white beard.

The Earth's Core.

At a meeting of the Seismological association at The Hague Professor Wiechert asserts that his studies of the varying velocity of the earthquake tremors passing through the interior of the globe led to the conclusion that the earth consists of a central core of iron or steel about 5,580 miles in diameter surrounded with a stony shell 930 miles in thickness. Between the outer solid rind and the inner layer of rock covering the metallic core he thinks there is a layer or liquid or plastic material lying a little less than 20 miles below the surface of the earth.—Scientific American.

My Corns Don't Hurt A Bit

Tired, Ailing, Swollen, Smelly, Sweaty Feet, Corns, Callouses and Bunions, TIZ Cures Right Off.

Say good-bye to your corns the very first time you use TIZ. You will never know you have a corn, bunion, or callous, or sweaty, swollen, aching feet any more. It's just wonderful the way the pain vanishes. Rub the corn—hammer it with your first if you wish—no more pain after TIZ than if there had never been a blemish on your feet. Doesn't that sound good to you? Doesn't it? Then read this.

"The corns on either of my toes were as large as the tablets you make to cure them. Today there is no sign of corns on either foot and no soreness. It's an up-to-date Godsend."—Sam A. Hoover, Progress, N. C.

Just use TIZ. It's not like anything else for the purpose you ever heard of. It's the only foot remedy ever made which acts on the principle of drawing out all the poisonous exudations which cause sore feet. Powders and other remedies merely clog up the pores. TIZ cleans them out and keeps them clean. It works right off. You will feel better the very first time it's used. Use it a week and you can forget you ever had sore feet. There is nothing on earth than can compare with it. TIZ is for sale at all druggists, 25 cents per box, or direct, if you wish, from Walter Luther Dodge & Co., Chicago, Ill.

NOTICE OF LETTING OF DRAIN CONTRACT.

Notice is hereby given, that I, D. W. Barry, County Drain Commissioner of the County of Washtenaw and State of Michigan, will on the 5th day of September at the lower end of said drain in the Township of Augusta in said County and State, at nine o'clock in the forenoon of said day, in accordance with the statutes in such case made and provided, proceed to receive bids for the construction of a certain Drain known and designated as the Tim Thompson Drain, located and established in the Township of Augusta in said County of Washtenaw and State of Michigan.

The right is hereby reserved to reject any and all bids. Said Drain is described as follows, to-wit:

Commencing in an old Drain in the SE 1/4 of SE 1/4 of Section 16, T4S, R7E, at a point 3.94 chains east and 1.35 chains North of the SW corner of said description, thence running as follows: N 8.85 chains, thence West 3.94 chains to B. Osborn's West line, thence North 7.39 chains to G. Osborn's North line, thence West 40.32 chains and then terminating at a point 16.32 chains West and 12 chains North of the NE corner of the S 1/2 of SW 1/4 of Section 16, Township of Augusta, Washtenaw Co., Michigan. The above described route is the center line of said drain. The intersections of each line is noted. The bottom of drain is to be two (2) feet wide and the slope of each bank one and one-half (1 1/2) feet horizontal to each foot perpendicular. Fifty feet on each side of said center line is taken to deposit excavations and for convenience in digging.

Surveyed August 7th, 1911.

JEROME ALLEN, Surveyor.
The following is a description of the several tracts or parcels of land constituting the special assessment district of said Drain:

The SE 1/4 of SE 1/4, SW 1/4 of SE 1/4, W 1/2 of S 1/2 of NE 1/4 of SE 1/4, N 1/2 of NE 1/4 of SE 1/4, E 1/2 of NW 1/4 of SE 1/4, W 1/2 of NW 1/4 of SE 1/4, S 1/2 of NW 1/4 of SE 1/4, N 1/2 of S 1/2 of SW 1/4, all in Section Sixteen of Augusta Township.

Now Therefore, all unknown and non-resident persons, owners and persons interested in the above described lands, and you John Lawson, Supervisor of the Township of Augusta, and you F. Helzerman, Highway Commissioner of said Township of Augusta, and you and each of you Bert Osborn, George Osborn, John Kramer, O. E. Vedder, R. H. Brown, T. Thompson, P. H. O'Brien, John Wantey Daniel O'Brien Est. are hereby notified that at the time and place aforesaid, or at such other time and place thereafter, to which said hearing may be adjourned, shall proceed to receive bids for the construction of said Tim Thompson Drain, in the manner hereinbefore stated, and also that at such time of letting from 9 o'clock in the forenoon until 5 o'clock in the afternoon the assessment for benefits and the lands comprised within the Tim Thompson Drain special assessment district will be subject to review.

And you and each of you, owners and persons interested in the aforesaid lands are hereby cited to appear at the time and place of such letting as aforesaid and be heard with respect to such special assessment and your interest in relation thereto if you so desire.
Dated at Ann Arbor, Mich., August 17th, A. D. 1911.
D. W. BARRY,

Airship's Predecessor.

Stephenson broke another record today. His "Rocket" made a flight of five miles, carrying four passengers, and left the rails only twice. "Very remarkable achievement, very—but you can't tell me that the steam engine will ever be of any real practical value."—The Tatler.

PERFECT BAT NEVER MADE.

Hans Wagner, However, Used One That Was Near Perfection.

"A perfect bat has never been made and never will be," says Hans Wagner. "I have had bats break when I met the ball squarely, break after months of faithful service, and a grounder would trick to an infield when the force I put into my swing was enough for a three base hit."

"The nearest perfect bat I ever saw was owned by a kid in a small Kentucky town where I once played in an exhibition game. I gave the boy 50 cents for it. Everybody on our club used the bat the first day I got it, and we made twenty-three hits."

LONG YACHT RACE PLANNED.

Route From New York to Los Angeles Is One Contemplated.

Plans for holding the biggest ocean to ocean race in the history of yachting are being offered by Commodore Daniel H. Laubersheimer, Vice Commodore Warren Wood and Rear Commodore Hubbel of the South Coast Yacht club of Los Angeles and other yachtsmen of southern California. They plan to pull off a race from New York to Los Angeles immediately after the opening of the Panama canal, in which hundreds of the big racing yachts of the east will be invited to participate.

SECRET OF LAJOIE'S BATTING.

Former Ball Player Says His Success Is Due to "Follow on" Style.

"The secret of Lajoie's successful hitting lies in the fact that he adopts the 'follow on' style used by golfers," said a former ball player. "He doesn't swing his bat from his side, but meets the ball squarely when it reaches a point in front of his chest, and then puts his strength into a sort of punch which carries the bat well beyond his left side. All first class batsmen do this, for it enables them to keep their eyes on the ball and to put strength into their bats when they hit the leather."

Pitcher O'Toole's Assortment of Twists

Marty O'Toole, Pittsburgh's new \$22,500 pitcher, according to reports, relies entirely upon two curves, a speedy splitter and a drop. "He has a fast ball with a good break that he occasionally mixes in and uses when he is in the hole. Almost every other ball he pitches is a splitter. It shoots to the right or left and breaks with such a quick snap that batters can't tell where it is going. His fast ball also breaks with a quick snap. He gets the break by snapping his wrist as the ball leaves his hand."

\$100 REWARD, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address: F. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75c.

Take Hall's Family Pills for constipation.

"BUGS" RAYMOND WAS ANXIOUS TO SEE WADDELL PERFORM.

When "Bugs" Raymond, whose stunts with the Giants this year may explain the derivation of his first name, was a real but eccentric star in the National league Rube Waddell was shining similarly in the American. Rube was at the height of his career then and by reason of his wanderings from conventional paths was pulling several columns of press agent stuff in the newspapers every day.

Raymond's team happened to be in the same city where Rube was billed to perform, and as it was an off day for Raymond he concluded to stroll over to the opposition camp and watch Rube in action.

When he reached the pass gate Raymond attempted to talk his way in.

"Thought I'd drop in and look this freak over," he said to the gateman. "Got a pass?" the official demanded.

"Oh, no," said "Bugs" easily—"professional courtesy, you know, old man. I'm a big leaguer. Merely wanted to see Rube pitch. They told me he's so nutty the squirrels follow him. Funny how a bat like that can pitch about .999, isn't it?"

The gateman was silent.

"Been reading about him playing marbles in alleys with the kids while the managers were searching the city for him to take his turn in the box," Raymond continued hopefully. "By George, he sure is nuts, if all this stuff is true. Must be worth looking at. I'd like to see him."

"You've got to show something better than a vocabulary to get in here," said the gateman.

"Why, man, you ought to pass me. I'm Raymond of the National. Merely want to size up this freak you have caged here."

"Oh, you're Raymond, are you?"

"Yep."

"The one they call 'Bugs'?"

"Yep."

"Well, you wait here a minute," said the gateman. "I'll bring Rube out and let him look at you."

Kansas Corn.

William Allen White, the Kansas literature, praised, at a picnic in Emporia, the fertility of his native state. "It was a Kansas boy, you know," said Dr. White, "who tried to climb a cornstalk the other day to see how the corn was getting on. Unfortunately the stalk is growing faster than the boy can climb and he is now out of sight. A lot of neighbors with axes have been trying to cut the stalk down, but it grows so fast they can't strike it twice in the same place. It was feared for a while that the boy would starve to death, but I am happy to say that over the private wire in my office we have got news to the effect that the little chap has already thrown down five bushels of cobs; whence one may infer that his diet, though monotonous, is adequate."

The Daily Press Profitbringers are sure to bring results.

BULL BARGAINS

I HAVE SEVERAL CHOICE REGISTERED HOLSTEIN SIREs READY FOR SERVICE AND YOUNGER ONES. THEY ARE Sired BY WOODCREST DEKOL LAD NO. 45103 AND OUT OF A. R. O. DAMS. SIXTEEN OF THEIR SIREs TWO-YEAR-OLD SIREs. RECENTLY SOLD AT AUCTION AT AN AVERAGE PRICE OF \$510.00 EACH. THEY ARE BRED RIGHT AND THE PRICES ARE RIGHT—THEY ARE

Calendar for Friday, Sept. 1, 1911
W. R. C., 2 p. m., G. A. R. Hall. Re-
freshments. Report from Mrs. J. W.
Garty.
G. A. R., 8 p. m., hall.
Circle of Companions, 7:30 p. m.,
Foresters' Hall.

Rural Calendar for Saturday, Sept. 2
Ypsilanti Grange, No. 45, 1:30 p. m.,
Masonic Temple. Mrs. Wm. Scot-
ney, hostess. Program in charge of
Ceres, Mrs. D. H. Budd. Music and
recitations. Speech by George Mc-
Dougall.

Entertains at Dinner.

Mrs. Edmund Hewitt entertained a
few friends at a six o'clock dinner
Wednesday evening in honor of her
daughters, Mrs. Max Pease, of Poplar
Bluff, Mo., and Mrs. George Tyles, of
Duluth, Minn.

Pleasant Family Reunion.

A pleasant reunion of the Horner
and Bunton families was held Wed-
nesday at the country home of Mr.
and Mrs. Fred Bunton, two miles
north of Sheldons. Forty-seven mem-
bers of the families were present. The
guests arrived in the morning and a
bountiful dinner was served at one
o'clock after which a program of short
speeches, recitations and music was
presented which was thoroughly en-
joyed by all. Among those present
were: Mrs. Carl Heglund of Jackson,
Mrs. Martin Stringer of Wayne, and
Miss Marian Stevens of Detroit. The
following officers were elected for the
coming year: President, Walter Stitt;
vice-president, Bert Bunton; secre-
tary and treasurer, Miss Marian Ste-
vens. The next reunion will be held
at the home of Walter Stitt in Ypsi-
lanti the last Wednesday in August
next year.

Miss Carrie Laffin leaves today for
Marquette, Wis. She will visit in Mil-
waukee and Fond du Lac on her way.
Mrs. Zina Buck and sister, Mrs.
Chester Rogers, and daughter Helen,
of Ithaca, are spending today in De-
troit.

Mrs. Harriet Burtis and Mrs. I. S.
Bassett and son Kenneth spent Wed-
nesday with friends in Ann Arbor.
Mr. and Mrs. H. Austin of Fort Sam
Houston, Texas, will spend Sunday
with Mrs. Austin's sister, Mrs. J. D.
Rust.

Mr. and Mrs. Harry Whitney have
returned from Gun Lake near Grand
Rapids where they have been spend-
ing the summer at their cottage. Mrs.
Whitney will be remembered as Miss
Ina Matthews.

Mrs. L. A. Newell and the Misses
Mabel and Florence Newell have re-
turned from a trip to Buffalo and
Cleveland.

Miss May George, who is head of
the piano department of the central
normal school at Mt. Pleasant, will
sail Sept. 6 from Baltimore by the
North-German Lloyd line for Germany.
She will study piano in Berlin under
Stepano during her year's leave of
absence.

Mrs. M. N. Loomis is attending the
home coming at Portland, Mich.

Mrs. Marian Clark left this morning
for an extended visit with friends in
Maryland.

Miss Clara E. Fuller of the Postal
Telegraph office has gone to Portland,
Michigan, to spend her vacation.

There were fifteen Ypsilantians on
one of the excursion boats which made
the trip from Detroit to Buffalo at
the time of the national G. A. R. en-
campment. Among these were Mr.
and Mrs. J. W. Garty, Chas. McIntire
and family, Mrs. E. E. Trim and daugh-
ter, Miss Faith, Seth Mereness, Mr.
and Mrs. Bird, Mr. and Mrs. Hadley
Webb and Mr. White and Mr. Sher-
wood.

Prof. Mark Jefferson has written
last from Wales. His party now num-
bers eleven, of whom two are Ameri-
cans, one English, and the remaining
are from continental universities.

Prof. Edwin Strong and Miss Fannie
Strong has arrived home from their
western trip.

Miss Eugenia Mereness, who has
been visiting at Gratiot Beach this
summer, will go next Monday to Mar-
quette, where she will be the guest of
friends for nearly a week.

The musical program at the Sunday
dinners at the Hawkins House are
attracting considerable attention. Last
Sunday the program included numbers
by George Parsons and Fred Reinhart.
Miss Palmer was accompanist.

Mrs. Arthur Ament and children
who have been spending the past
summer at Cavanaugh Lake, will re-
turn home Saturday.

Mrs. Henry Frain, Mrs. W. R.
Schaeffer and Mrs. Nan Strong will
return Saturday from a month's stay
at Cavanaugh Lake.

Mrs. Tooke will leave Saturday for
Fort Wayne, Ind., where she will
spend the week with her son.

Paul Hayward and Harold Sander-
son are spending the week with friends
at Toledo. They made the trip on
their wheels.

Mrs. D. C. Batchelder is entertain-
ing Mrs. Hamlin of Washington, D.
C. Mrs. Hamlin is on her way home
from a trip around the world.

M. K. Phillips and son are spending
a few days with friends at Bancroft.
Mrs. Max Pease and daughter, Jose-
phine, and Miss Ellen Colvan will
leave Saturday for Poplar Bluff, Mo.,
after spending the summer in Ypsi-
lanti.

Mrs. Gates White and daughter of
Garden Prairie, Ill., who have been
spending the past few weeks in the
city at the home of Mr. and Mrs.
Carlor Childs of Congress street, re-
turned to Garden Prairie this morn-
ing.

Mrs. Wanless and Miss Sarah May-
vity of Sarnia are spending a few days
in the city.

Mr. and Mrs. Burdette Fehlig of
St. Louis, Mo., and the former's aunt,
Mrs. James Wise, are spending the
day at Put-in-Bay.

Mrs. Louis Howard has accepted the
position as pianist at the Vandette
theatre.

Miss Henrietta Kircherer is spend-
ing her vacation in Detroit.

Guy Richards and family of East
Congress street are moving into their
new residence on Davis street.

Floyd E. Daggett spent Wednesday
in Ann Arbor.

Mrs. S. May Sleeper will go to-
morrow to London, Ontario, to visit
her sister and bring home with her
the first of next week her little girl,
who has been spending a month in
London.

Mrs. A. P. Ferguson spent Wednes-
day in Detroit.

Mrs. Edith Filer of Forest avenue
spent yesterday in Detroit.

Mr. and Mrs. Sam Fletcher went to
Detroit today to attend the funeral
of Mrs. Philinda Dowling. Mrs. Dow-
ling is a sister of Sam, Frank, Roland
and Charles Fletcher and lived at one
time in Ypsilanti, though for the last
thirty years she has resided in De-
troit. She was sixty-five years of age
and leaves one son by her first hus-
band, Addison Roe.

Mrs. W. H. Hall has returned from
Detroit, where she has been the last
four weeks in Dr. Gowan's private
hospital taking treatment.

Carl Siegel, who has been spending
the past four weeks with his aunt,
Mrs. Rosa A. Smith of Park street,
has returned to his home in Newark,
Ohio.

Miss Clara and Henrietta Kicherer
are going to spend a few days in De-
troit with friends and their cousin,
Fred Kicherer.

A son was born to Mr. and Mrs.
Harvey Reddaway of Babbitt street,
Tuesday night.

Prof. S. B. Laird will go to Monroe
to address an institute, Saturday.

Mr. and Mrs. LeRoy Haywood and
daughter of Chicago, who have been
the guests of Mr. and Mrs. Frank A.
Norton, have returned to their home.

Sixteen Pairs of Buster Brown Hose

To be given away Friday morning at 8 o'clock sharp. To any
School Boy and any School Girl who get a Buster Brown Puzzle now
displayed in our window and see the puzzle first.

It's Easy

The entire scheme is now on display in our window. The puzzles
are limited, and there may not be enough to go around so be there
early and avoid the rush and gehe game.

Where? At

BABE GOES TO COURT

Jersey City, N. J., Aug. 31.—The
arrest here of Thomas Parker, a
three-year-old child, on a charge of
assault and battery, is believed to es-
tablish a record for the United States.
So far as police records available
show, Thomas is the youngest pris-
oner ever taken to an American jail
in a formal charge. The prisoner
rode to the second precinct police
station in his own carriage, with his
mother as the motive power.

The complaint on which the warrant
was issued was lodged by Joseph H.
Blumenthal, who charged that the
three Parker boys, Thomas, Charles
and Edward, had hurled stones at
and hit him. The two older brothers
are aged eight and ten years. After
examination they were allowed to go
in custody of their mother, to be ar-
raigned later this week.

SUPERIOR TOWNSHIP
FARMER CLAIMS HE
HAS BEST CORN CROP

Robert Staebler, who resides on the
A. M. Kanouse farm in Superior town-
ship, claims the championship in rais-
ing corn in this vicinity. On Tues-
day and Wednesday, August 29 and 30,
he filled two silos, one of which is
32x14 and the other 32x11, in 19 hours
from 13 acres of listed corn. And this
is not all, he had one load left, which
is an unusual record for this vicinity.

GOOD ATTRACTIONS ARE
SCHEDULED FOR CHORAL
CONCERTS THIS YEAR

Ann Arbor, August 31.—In the
choral union concert schedule for the
coming season the following attrac-
tions are to be noted: Maude Powell,
Nov. 17; Mme. de Pasquali, Dec. 8;
Flonzaley quartet, Jan. 22; Josef
Lhevinne, Feb. 16; nineteenth annual
May festival, comprising five con-
certs.

The faculty of the school of music
has planned seven historical recitals,
besides orchestral concerts and sev-
eral violin sonata recitals and faculty
concerts. In all there are 31 events
on the University music calendar.
